Evergreen Bareroot	Size	\$ per bundle of 25 trees	# of bundles	Total Cost
Cedar, Eastern Red	9-15"	\$44.00		
Spruce, Black Hills	7-15"	\$44.00		
Spruce, Norway	7-15"	\$44.00		
Evergreen Potted	Size	\$ per pot	# of pots	Total Cost
Arborvitae, Am.	1 Gal. 15-18"	\$11.50		
Arborvitae, Am.	2 Gal. 18-24"	\$15.50		
Pine, Red	1 Gal. 15-18"	\$11.50		
Spruce, Black Hills	1 Gal. 15-18"	\$11.50		
Spruce, Black Hills	2 Gal. 24-30"	\$16.50		
Spruce, Meyer	1 Gal. 12-15"	\$10.50		
Spruce, Meyer	2 Gal. 15-18"	\$13.50		
Spruce, Norway	1 Gal. 15-18"	\$11.50		
Spruce, Norway	2 Gal. 18-24"	\$15.50		
Deciduous Bareroot	Size	\$ per bundle of 25 Trees	# of bundles	Total Cost
Birch, Paper	2-3'	\$46.00		
Cherry, Black	2-3'	\$46.00		
Chokecherry, Common	2-3'	\$46.00		
Crabapple, Red Splendor	2-3'	\$46.00		
Hackberry	2-3'	\$46.00		
Maple, Red	2-3'	\$46.00		
Oak, Bur	18-24"	\$44.00		
Oak, Red	2-3'	\$46.00		
Plum, American	2-3'	\$46.00		
Poplar, Norway	2-3'	\$46.00		
Serviceberry, Juneberry	18-24"	\$44.00		
Walnut, Black	2-3'	\$46.00		
Willow, Hybrid	2-3'	\$46.00		
Deciduous Bareroot Shrubs	Size	\$ per bundle of 25 shrubs	# of bundles	Total Cost
Arrowwood	18-24"	\$44.00		
Dogwood, Redosier	18-24"	\$44.00		
Elderberry	2-3'	\$46.00		
Nannyberry	18-24"	\$44.00		
Plant Packs <i>New</i>	Size	\$ per pack of 36 plants	# of packs	Total Cost
Monarch Plant Pack	-	\$55.00		
Pollinator Plant Pack	-	\$55.00		
Other/Special Orders	Size	\$ per piece	# of pieces	Total Cost
Tree Mats (1 per tree)	3' X 3'	\$1.50		
Fertilizer (1 per tree)	Packet	\$0.40		
Tree Tubes (1 per tree)	5'	\$3.00		

**Stock is very limited so order by February 21st for best selection.**

**No cancellations after this date.**

**NEW IN 2022:**  
 Order and Pay for orders in our online store at [www.freebornswcd.org](http://www.freebornswcd.org)

**Not Ordering Online?**  
 You can still mail in your order with your payment.

*Not seeing something on the list? Contact the SWCD and we may be able to order it for you.*

**Potted deciduous trees are available. Contact the SWCD for availability and pricing!**

*Bareroot trees will be sold in bundles only. If you want fewer trees we recommend purchasing potted.*

- The SWCD sells good quality trees, but offers no guarantee of survival or availability of items ordered.  
 - We will contact you when the orders are ready to be picked up, generally around the 3rd or 4th week of April  
 - We have had to remove some varieties from our list that we normally have due to a shortage at the nursery. We are hopeful they will return in the future.

**Evergreens**

**Deciduous Trees**

Arborvitae, American: *Thuja occidentalis* - Height of 40 – 50'. Also known as Northern White Cedar. Pyramid shaped tree with flat, soft green scale-like needles. Excellent windbreak tree for home sites. Susceptible to drying out in dry, cold winters so water well.

Cedar, Eastern Red: *Juniperus virginiana* – Height of 40 – 50'. Native to IA. Sharp green scale-like needles. Good for wildlife. Tolerant of most light and heavy soil conditions.

Birch, Paper: *Betula papyrifera* - Height of 50 - 70'. Hardy native and fairly rapid growing with shallow roots. Somewhat borer resistant, but not pollution tolerant. Easy to transplant and casts light shade.

Cherry, Black: *Prunus serotina* - height of 30-60' and moderately fast growing. Prefers well-drained sites. Is moderately tolerant of shade and drought. Produces small fruits in late summer.

Pine, Red: *Pinus resinosa* – Height of 50 - 80'. Also known as Norway Pine. Long needled, pyramid shaped tree. Prefers well-drained, sandy soils. Popular Christmas tree species. Needs up to 20' spacing to avoid overcrowding of lower branches.

Spruce, Black Hills: *Picea glauca var. densata* – Height of 40 – 50'. Native to Black Hills, SD. Strain of white spruce. Slow growing, conical tree with dark green needles. Hardy and more drought resistant than White Spruce.

Crabapple, Red Splendor: *Malus "red splendor"* – Height and spread of 15-25'. Leaves are green or reddish, flowers are white or pink followed by fruits ¼" to 1" in diameter. Full sun. Quality food source for wildlife.

Chokecherry, Common: *Prunus virginiana* – Height of 15-20'. Produces edible reddish-purple or black cherries that ripen in late summer. Needs well drained soils. Pruning may be necessary. Excellent plant for wildlife food & cover.

Spruce, Meyer: *Picea meyeri* - grows to mature heights of 40-100 feet. Being used to replace Colorado Spruce because of it being disease prone. Grows 13-24" per year. Can handle droughty conditions and likes the sun.

Spruce, Norway: *Picea abies* – Height of 80 – 100+'. Native to Europe. Pyramidal tree with drooping branches. Fastest growing, and tallest species of spruce.

Hackberry: *Celtis occidentalis* – Height of 30-60+'. Tall, wide spreading crown. Has a scaly or warty bark. Produces dark purple fruit. Grows best in well drained, moist soils. Excellent cover and food source for wildlife. Intermediate shade tolerance.

Maple, Red: *Acer rubrum* – Height 40-70'. Native to MN. Saw toothed lobed leaves. Shade tolerant, grows in very wet to dry conditions, moderately fast growing. Leaves can turn red, yellow or orange in fall.

**Shrubs**

Arrowwood: *Viburnum dentatum* – Height of 6-10'. Native of eastern and mid-western U.S. Produces cream colored flowers followed by small blue or purple fruits. Favors moist but well-drained soils of varying pH. Good food source for wildlife.

Dogwood, Redosier: *Cornus sericea* – Height of 8-10'. Fast growing native shrub. This shrub has bright red stems and produces clusters of white fruit. Good for wildlife. Prefers moist sites.

Oak, Bur: *Quercus macrocarpa* – Height of 70-80+'. Has simple lobed leaves and produces acorns. Good for wildlife. Tolerates a variety of soil types. Long-lived but slow growing initially.

Oak, Red (Northern): *Quercus rubra* – Height of 60-80+'. Simple lobed, bristle-tipped leaves. Red or brown fall leaf color. Good for wildlife. Prefers deep, rich soils, intolerant of drier alkaline soils. Long-lived and fastest growing oak.

Elderberry: *Sambucus canadensis* - Height of 5-12'. Occurs in rich soils scattered throughout bottom lands, uplands, along streams, fence rows, and low places. Provides fruit for wildlife.

Nannyberry: *Virburnum lentago* - Height of 10-20'. Fast growing. Glossy leaves with cream flowers followed by blue-black berries. Tolerates a wide range of soils and pH. Attractive for shiny foliage and red fall color.

Plum, American: *Prunus americana* – Height of 12-25'. Fast growing small tree. Fragrant white flowers are followed by edible fruits, yellow or red in color. Quite adaptable. Thicket forming.

Poplar, Norway: *Populus deltoides x nigra* – Height up to 80+'. Grows very fast and tall. Good for windbreaks when used as a temporary species. Short lived. Norway is best adapted of the poplar species.

**Other**

Fertilizer Packs: A small packet filled with a pre-measured amount of fertilizer that is placed alongside the seedling at time of planting. The packet slowly releases nutrients to help new seedlings get an extra boost.

Tree Mats: A three foot square permeable woven plastic sheet or solid plastic sheet that greatly reduces weed competition, reduces maintenance time, and increases soil moisture. Each mat comes with 5 tree mat staples.

Walnut, Black: *Juglans nigra* – Height of 50-60+'. Native to IA. Fast growing. Leaves are pinnately compound and produce a hard-shelled nut. Good for wildlife. Prefers moist well-drained soils.

Willow, Hybrid: *Salix matsudana/alba* - Large tree up to 75'. Single stemmed tree good for windbreaks. Avoid planting near other willows and in areas where uncontrolled spread is possible.

Tree Tubes: A plastic, vented tube which protects hardwood trees and some shrub seedlings from animal browse, mower and spray damage. Stakes are not provided; any 5' stake will work along with zip ties.

**Plant Packs**

Monarch Pack: A mix of native species to benefit Monarch caterpillars and butterflies. Species include Showy Milkweed, Meadow Blazing Star, Showy Goldenrod, Sky Blue Aster, Purple Prairie Clover, and Side Oats Grama.

Pollinator Pack: A mix of Spring, Summer, and Fall blossoming species in a variety of colors to provide food for a range of pollinators year-round. Species include Yarrow, Prairie Coreopsis, Pale Purple Coneflower, Sky Blue Aster, Hoary Vervain, and Little Bluestem.
